```
/*
 * Task1. Write a program that prints all numbers between -100 and 100. Then print them
backwards.
 * Task2. Write a program that prints all odd numbers between 0 and 50 and all even numbers
 * between 51 and 100.
 * Task3. Write a program that prints all numbers from A to B that can be divided by 3. A and B -
from
 * operator from console. Numbers must be in ascending order.
 * Task4. Write a program that tells you if a number is prime.//prosto chislo
 * Task5. Write a program that reads a positive number and writes its binary representation.
 * Task6. Write a program that reads a short positive number and tells how many bits are 1 in it.
 * Task7. Write a program that reads a number and prints a triangle of stars with the height of
 * the number.
 * Task8. Modify task 8 to print a triangle that is hollow and has only a frame of stars.
 * Task9. Write a task to check if a number is a palindrome;
